

Diane ~

I have been bringing my children to Vangaurd Dental for many years. We chose Vangaurd, once Hinda Dental for their pediatric dental care reputation. The pediatric hygienist team is outstanding. The ladies are more than caring, gentle, and kind with the children. They always greet us with a smile and treat my children as if they were their only patients.

Under the care of Dr. Haas who is a wonderful dentist, ~~my~~ both children were referred to orthodontics. Having two children in braces was a bit overwhelming. Dr. Hinda was very thorough with his explanations as to why orthodontics was necessary. I was confident that with his expertise and kind manner, the children were in good hands.

Karen walked us through the financial process which we found helpful and convenient that there were payment plans and certain discounts.

My son was very anxious about both his teeth cleanings as well as the ortho work. The girls in ortho have gone above and beyond to make both of my children's experiences comfortable and bearable.

Their gentle way and caring manner was greatly appreciated. They did their best to make my ^{experience} trip to the dentist convenient by scheduling their appointments together.

Dr. Linda is always checking them in a positive manner making sure they understand what is next in their individual ^{or his} process.

My experience ~~starts~~ at Vanguard ~~always~~ always begins and ends with the friendly faces at the front desk. I appreciate the reminder calls and emails for upcoming appointments.

I would highly recommend the Staff and Care here at Vanguard Dental.

Thankyou

Heather
